

The **INTERNAL** problem: a “Balkanized” society in the U.S.?

*“There is no greater challenge facing our nation than race... If we continue to ignore growing inequalities and divisions, **we will become a thoroughly balkanized society** dominated by a declining white minority. History and headlines worldwide provide ample evidence of the grievous consequences along that path.”*

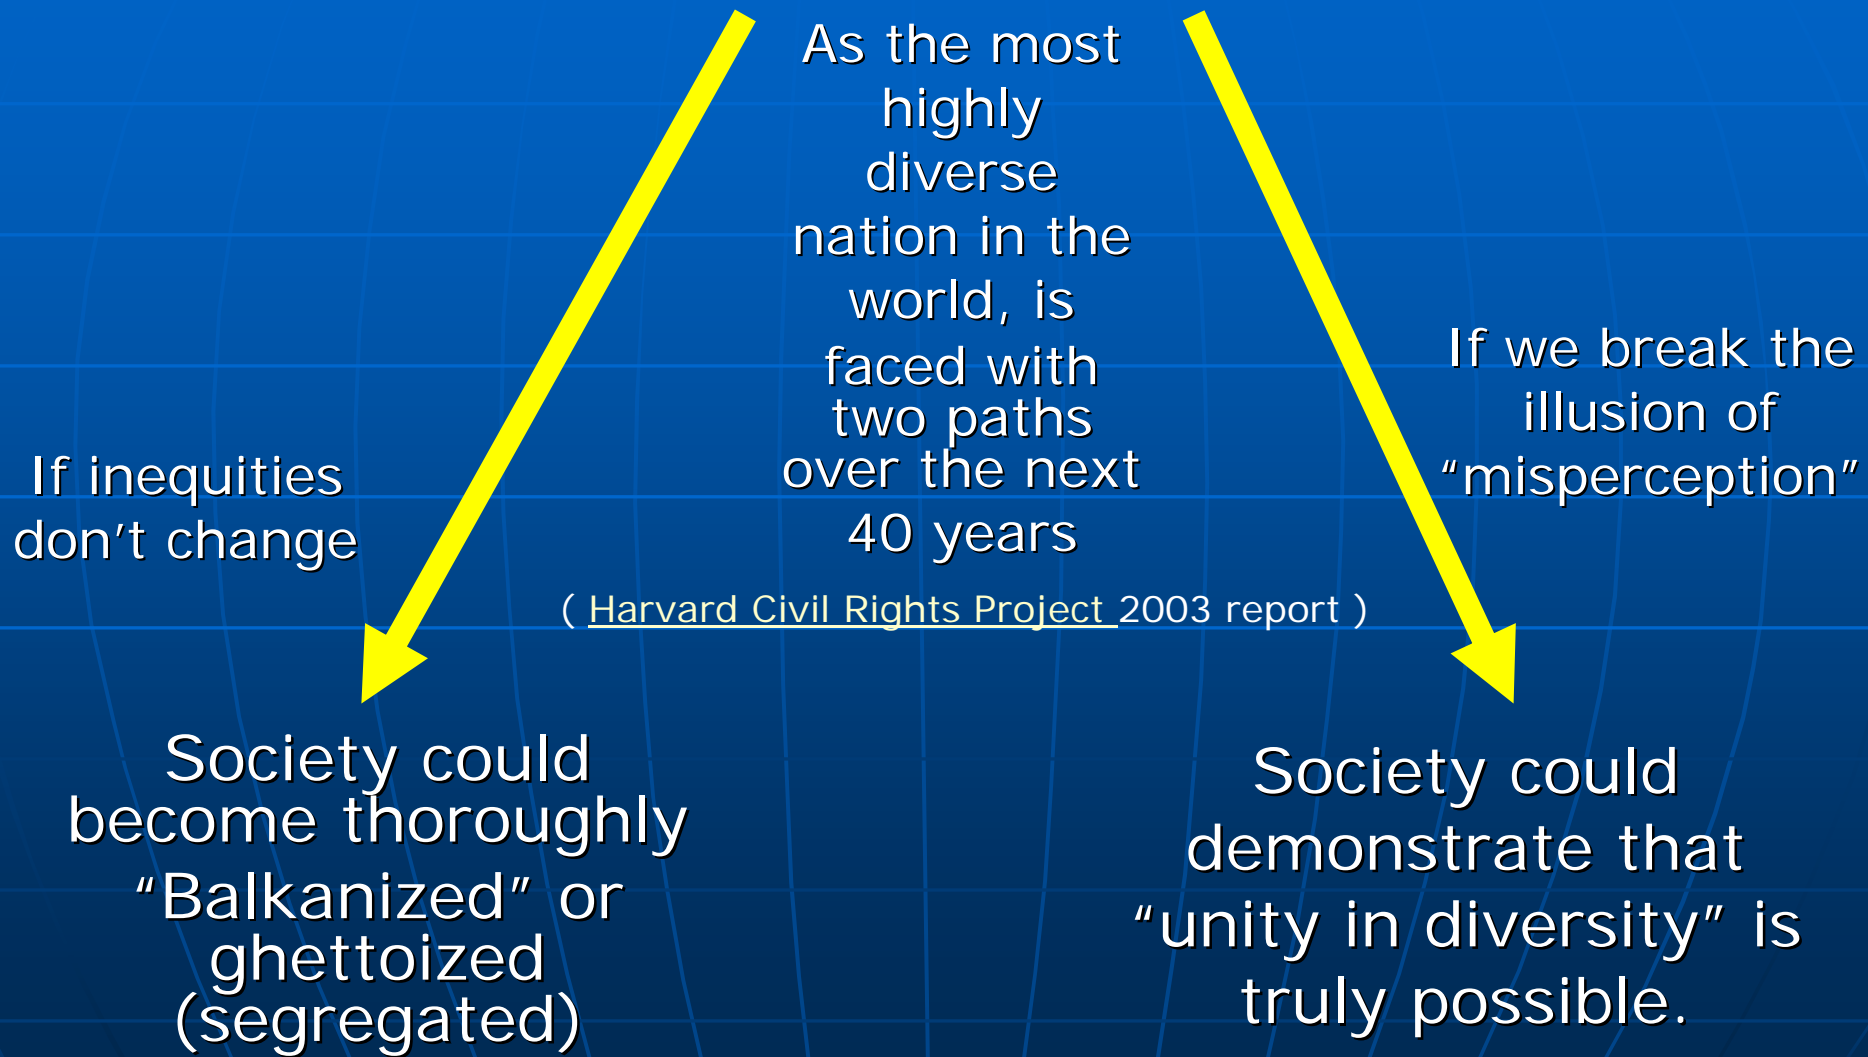

-- Harvard Civil Rights Project

Only one generation left to fix this

*United States is in the throes of the largest migration in American history while we are simultaneously witnessing increasing segregation at an alarming rate. "And while only a half century ago the country was nearly 90% white, within the **next fifty years** there will be no racial majority, and non-Europeans will actually outnumber whites in the general population -- a demographic shift already appearing in an accelerating number of institutions and communities."*

-- Harvard Civil Rights Project

Crisis of Ethnic Segregation in U.S. America at the Crossroads

More possibilities of conflict and violence, or helping lead the world to Peace.

Our choice: Segregation or Unity

Many fear that increasing diversity in the U.S. will lead inevitably to ethnic segregation and a ***“thoroughly balkanized society”*** (Harvard Civil Rights Project)

— with disparate groups violently oriented towards one another.

If **justice and unity *within this diversity*** can be achieved, America — as the most culturally diverse country in the world — could **lead the world towards UNITY**, harmony and purposeful co-existence.

Our choice: Segregation or Unity

“In one sense it could be said of America that its dream of equality, union and democracy is about to be truly tested – whether it is merely a mythological ideology or whether it can become real. If it can, this shift towards a more equitable union of diversity potentially represents a microcosm of a new world.”

Greg Kagira-Watson

Our choice: Segregation or Unity

The irony, perhaps, is that the United States is being forced to implement its espoused theoretical ideal or perish.

At the same time, **the world must awaken** to the realization that what is happening with diversity in America – if it truly is the microcosm – is **everyone's challenge ultimately.**

Let no one doubt that racial hatred still exists in the United States

Thousands of Americans have been killed in race riots since 1829 – not counting the 629,000 killed in the American Civil War. (There were 26 race riots in the U.S. in 1919 alone!)

More recently the violence has broken out with hatred towards the immigrant Hispanic population.

Current example: Farmingville, NY, U.S.A. **struggles daily to accept immigrants**

- **Late 1990s**: A sudden influx of 1500 Mexican workers in a 15,000 predominantly white town results in **racial tensions, hate crimes & total polarization / segregation**.
- A **22 year old Mexican migrant worker** was **lured and murdered** by two whites, out the racial tensions.
- **July 5, 2004**: **a flammable device was thrown into a small two-story house** in this semi-suburban Long Island town. The house, with a Mexican family sleeping inside, was quickly enveloped in flames. Family escapes
- **July 26, 2004**: A white man **robbed Mexican day laborers** at gunpoint, posing as a contractor.
